

Delcap Asset Management Limited

Voting & Engagement Policy

Engagement Policy

Delcap has so far not developed any Engagement Policy.

Delcap invests almost exclusively in funds (index funds, active funds) and ETFs. Our clients can opt for mandates with a specific ESG or positive impact strategy. These mandates offer an indirect exposure to hundreds of companies. We believe that the managers that we work with are better positioned than us to engage with these companies on important environmental, social and governance issues.

Voting Policy

Delcap has so far not developed any Voting Policy.

Delcap invests almost exclusively in funds (index funds, active funds) and ETFs, and not in individual companies. As a result, we are almost never asked to vote on proposals that could have an important environmental, social or governance impact.
